

We Deserve Christmas

words and music by Miles Baltrusaitis, Gary Zimmer, Matt Stankiewicz

Busy people on a city street
People walking in time to that city beat
Could be any year in any kind of place
You'll see happy people with a smile on their face

Do you know what's making them smile
Like they haven't smiled in a while
It's Christmas in the heart of the city

It's Christmas where the sights and the sounds
Make the season so pretty
Let's observe Christmas
Let's preserve Christmas
We deserve Christmas

Crowded stores make that city sound
As the snow falls, people skate downtown

Do you know what's making them smile
Like they haven't smiled in a while

It's Christmas in the heart of the city
It's Christmas where the sights and the sounds
Make the season so pretty

Let's observe Christmas
Let's preserve Christmas
We deserve Christmas

It's Christmas in the heart of the city
It's Christmas where the sights and the sounds
Make the season so pretty
Let's observe Christmas
Let's preserve Christmas

We deserve Christmas
Oh yeah, yeah, yeah
